HAI CHAU District, DA NANG City

INTERNSHIP EXPERIENCE

AI Intern – SDC Software Development Center

Internship (May 25, 2025 - Jun 29, 2025)

- Conducted an internship project on jackfruit ripeness detection using YOLOv8.
- Collected and labeled dataset with Roboflow, ensuring data quality and diversity.
- Trained, evaluated, and fine-tuned object detection models for real-world agricultural applications.
- Applied Python, OpenCV, and YOLOv8 framework for training and evaluation.
- Collaborated with team members, improved technical research skills, and learned best practices in AI model development.

SKILLS

Python

YOLOv8

OpenCV

TensorFlow (Fundamentals)

Roboflow

JavaScript

MongoDB, MySQl

React.js, HTML, CSS

Git & GitHub

ACTIVITIES

VSEATEAM Volunteer Club - DANANG UNIVERSITY OF ARCHITECTURE

Executive Committee Member (June 2024 - Apr 2025)

Main responsibilities:

- Coordinated and organized volunteer programs both within the university and in local communities.
- Managed logistics: prepared equipment, supplies, and assigned team members for various events.

CERTIFICATIONS

2024 - 2025

Certified in Microsoft Modern Desktop Administration Associate, Responsive Web Design (FreeCodeCamp), React Crash Course with Mini Projects, Git & Version Control, and Python Programming.

REFERENCES

- Collaborated with other committee members to plan activities, divide tasks, and ensure smooth execution.
- Developed teamwork, event planning, and problem-solving skills in real-world settings.

FreeCodeCamp – Responsive Web Design Certification , React Crash Course with Mini Projects, Git

INTERESTS

Reading technology books and articles, learning new programming languages, joining student clubs and volunteer activities, playing sports (football, badminton).

HONORS & AWARDS

May 2024

Student of 5 Merits
